Seven has the widest range of base options available anywhere, with a consistent appearance across the range of fixed, notch, crank and electric.

Fixed

Fixed height tables are set at a standard height of 29 1/2 inches and have a 500 lb capacity.

Fixed Base

Notch

Facility Adjustable. Utilizing a dual-notch telescoping mechanism, the notch adjustable bases provide an 11 or 13 inch range of height adjustability in 1 inch increments and have a 500 lb capacity.

Notch 22-33"

Notch 26-39"

Crank

User Adjustable. The front crank lift mechanism provides a continuous 11 or 13 inch range of height adjustability and supports 150 lbs of dynamic lifting capacity atop the worksurface and 250 lbs of static load capacity.

Crank 22-33"

Crank 26-39"

Electric

The electric lift mechanism provides a 22-48 inch full BIFMA sit-to-stand range of height adjustability and supports 250 lbs of lifting capacity atop the worksurface and 400 lbs of static load capacity.

Electric bases are available in Black or White Aluminum powdercoat only.

Electric

Undermount Switch —

Retractable undermount switch works with single sided desks and keeps the worksurface free from visual clutter

Embedded Switch —

Flush surface mount keeps workspace and undercarriage free from mechanical interference. Recommended for Reversible Desks
